15th International Conference on Surface Protective Coatings on Sept 15 - 16, 2023

SCOPE

SSPC India-was founded in July 2003, as a non-profit professional society with focus on the use of coatings to protect industrial steel structures. SSPC India: The Society for Surface Protective Coatings serves its members and advances the Industry through standards, regulatory advocacy, education and information exchange. It has the large membership of companies such as facility owners, paint manufacturers, painting contractors, architectural, engineering and construction firms, educators.

SSPC India-was founded in July 2003, as a non-profit professional society with focus on the use of coatings to protect industrial steel structures. SSPC India:The Society for Surface Protective Coatings serves its members and advances the Industry through standards, regulatory advocacy, education and information exchange. It has the large membership of companies such as facility owners, paint manufacturers, painting contractors, architectural, engineering and construction firms, educators.

We are now launching the 15th edition of the International Conference on 'Surface Protective Coating & Paint coating at Hotel Lalit, Sahar Mumbai (near Int. Airport) This time the conference will be with a new feature of discussions a few important issues in paint coatings followed by a few short presentations with an expert panel on the topic. The se details are given below.

1. New Age Coatings or Highways and Roads with a special focus on **Traffic and Road marking** coatings.
2. Critical Review of **Single Coat** System Vs multiple coat system
3. Role of paint additives and Pigments in enhancing the macro properties of the coating.
4. **Nano Technology** Material Science and its use to build multi functional properties in paints and coatings.
5. **Water Borne Coatings**— present status and future prospects. Has waterborne technology come to the age of Metal substrate?
6. **Marine Coatings**— ships, jetties, Naval Structures, offshore platforms, offshore Windmills
7. **Highly Corrosion Resistant coatings**— Battery Pits in Ships and Submarine, Acid Storage tanks, Sewage Water treatment plants, pickling plants
8. Eco-friendliness, Green and **Energy Saving Coatings**— Solar Heat Reflective coatings, Insulation Coatings.
9. New Developments in Pipeline Coatings, Oil & Gas, water pipelines, potable water coatings, external c oatings

Please arrange titles /details of one or more topics as indicated above. Please note only Crisp presentation of not more than 15 minutes will be allowed in a Panel Cum Presentation session on various topics, deadline which is March 31, 2023.

Also, please submit the abstract for poster papers on new research / products / formulation from R&D Organisation / industry.

15th International Conference on Surface Protective Coatings on Sept 15 - 16, 2023
